WORK EXPERIENCE

Senior Web Designer | Youtech | 08/2025 - Present

- Manage a fellow designer's workload daily while carrying a full project load of my own, offering direct support and delegation across both tracks.
- Architect large-scale WordPress builds from the ground up, defining scope, structure, and technical approach before a single page is touched.
- Act as the senior technical point of contact for priority clients, turning complex decisions into clear direction and keeping stakeholders confident throughout.

Web Designer | Youtech | 03/2024 - 08/2025

- Owned 30+ web projects from initial design through launch, managing the full lifecycle across a fast paced agency environment.
- Built ADA compliant, high performance WordPress sites with strong web vitals and executed 100+ marketing updates across live client sites.
- Designed and optimized conversion focused landing pages built for campaign performance and measurable marketing success.

Part-time UX Researcher and Designer | UX Mesh | 05/2023 - 03/2024

- Designed and built the startup's WordPress website, establishing a credible online presence for the early-stage company.
- Ran surveys and user interviews, translating findings into actionable design and product recommendations.
- Contributed ongoing UX strategy, aligning research insights with business goals to shape the product's direction.

PROJECTS

DryForce | *WordPress Web Design and Development*

- Led the build of a 100+ page WordPress site, coordinating content architecture and structure across a complex, large-scale project.
- Designed the full site experience and delivered targeted recommendations that shaped the quality and direction of the final product.
- Supervised a team of 5 web designers, maintaining consistent execution and keeping the build on schedule.

Next Door and Window | *WordPress Web Design and Development*

- Designed the site from scratch and co-led a team of 3+ designers to build 200+ pages and landing pages, one of the agency's largest builds.
- Built landing pages with a conversion first approach, positioning each page to support campaign performance and marketing goals.
- Provided key technical direction throughout, delivering a scalable, high performance build that met client and agency standards.

American Sports Construction | *WordPress Web Design and Development*

- Designed and built a new website for a \$25M+ revenue company, delivering a polished presence that matched the scale of their business.
- Managed client communication and design expectations, keeping a prominent stakeholder aligned and confident at every stage.
- Ensured full ADA compliance and strong web vitals, setting a quality benchmark carried into future agency builds.

Sunrise Kitchen | *WordPress Web Design and Development*

- Partnered with a local breakfast brand to build a warm, visually distinct online presence rooted in their personality and identity.
- Designed and built the site personally from scratch in WordPress, owning every aspect from concept through launch.
- Delivered a responsive, visually driven build that gave a small local business a standout web presence.
